LYDON ELECTRIC & SOLAR

COMMERCIAL SOLAR

SPARTA + WESTERN WISCONSIN

Solar with a clear business case.

For farms, businesses, churches, nonprofits, and public buildings. Explore solar around your property, operating needs, and decision process.

First Congregational Church UCC, La Crosse.

WHAT YOU GAIN

- **Make your property part of your energy plan.** Evaluate roof or ground-mount solar against your electric use and operating needs, with a scope suited to your site.
- **Give decision-makers a clearer basis to act.** Compare equipment, estimated production, costs, utility billing assumptions, and incentive eligibility in a project-specific proposal.
- **Coordinate solar with the electrical work.** Plan installation and electrical integration together. Evaluate backup separately around critical loads and operating priorities.

YOUR PROJECT MAY INCLUDE

- ✓ Roof or ground-mount options
- ✓ Solar and electrical coordination
- ✓ Equipment and warranty review
- ✓ Usage and site review
- ✓ Permit and utility coordination
- ✓ Optional storage and backup

Local experience includes First Congregational Church UCC, Herrman Elementary School, and Sparta Free Library.
