LYDON ELECTRIC & SOLAR

COMMERCIAL ELECTRICAL

SPARTA + WESTERN WISCONSIN

Power your plans.
Leave room to grow.

Electrical construction for farms, shops, offices, restaurants, retail, and warehouses. Bring us in before the building locks in your options.

1

PLAN THE LOADS

Equipment and operating needs

2

COORDINATE THE BUILD

Layouts, trades, and timing

3

ALLOW FOR GROWTH

Future circuits and equipment

WHAT YOU GAIN

- **Plan around what your building must run.** Identify equipment, lighting, and anticipated loads early so service and distribution decisions have a clear basis.
- **Catch coordination issues on paper.** Review electrical needs with your plans and construction team before rough-in, concrete, and finishes.
- **Make future additions easier to plan.** Discuss space and pathways for EV charging, solar, batteries, or generator backup as the design takes shape.

YOUR PROJECT MAY INCLUDE

- ✓ New-construction electrical
- ✓ Panels and equipment circuits
- ✓ Remodels and troubleshooting
- ✓ Service sizing and upgrades
- ✓ Lighting and controls
- ✓ EV, solar, and backup preparation

Electrical is our foundation. Solar, storage, and backup are integrated specialties, with a local electrical heritage dating to 1975.
