LYDON ELECTRIC & SOLAR

RESIDENTIAL ELECTRICAL

SPARTA + WESTERN WISCONSIN

Build it right.
Plan for what's next.

Electrical planning and wiring for new homes, additions, and remodels across Sparta and western Wisconsin.

1

PLAN YOUR HOME

Rooms, lighting, and daily routines

2

WIRE IT WELL

Service, panels, and circuits

3

PREPARE FOR NEXT

Future equipment and energy needs

WHAT YOU GAIN

- **Decide before the walls close.** Coordinate outlets, lighting, panel locations, and major equipment while changes are easier to make.
- **Plan capacity around your home.** Review today's needs and likely future loads before choosing service size and panel space.
- **Keep the whole system in view.** Bring electrical, solar, EV charging, and backup questions to one local team.

YOUR PROJECT MAY INCLUDE

- ✓ New-home wiring and remodels
- ✓ Kitchen, bath, garage, and shop circuits
- ✓ EV charger circuits
- ✓ Service upgrades and panel changes
- ✓ Lighting layouts and controls
- ✓ Troubleshooting and repairs

Built on an electrical legacy that began in 1975. A Sparta-based team to help plan the work and support it after installation.
